¹² Since 2024: two team competitions; 60 shots

¹³ The top 8 teams in the qualifying round 1 (every shooter fired 45 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 90 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete shot against the athlete in the corresponding position in the other team. The shooter with the higher score received two points (In case of a tie everyone got one point). As soon as one team had reached 46 points, the "duel" was over. In case of a tie where both teams have scored at least 46 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

¹⁴ Since 2022: The team event establishes rankings based on the total scores fired by three athletes entered in the individual event. The scores of each team member will be added together and the team results will be ranked. The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

¹⁵ 1955 - 1977: 40 shots; 1955 - 1959: The tie was decided by comparison of the number of 10s, 9s (in parentheses). As this was still a tie the distance of the last 10 to the center of the target decided. Bogdanov and Golovin had identical numbers of 10s and 9s, so the distance of the last 10 to the center of the target decided.

¹⁶ Bogdanov and Ylönen had identical numbers of 10s and 9s, so the distance of the last 10 to the center of the target decided.

¹⁷ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

¹⁸ 1981 - 1983: The tie was decided by comparison of the number of inner 10s (in parentheses).

¹⁹ 1987 - 2007: The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

²⁰ Series identically: 100/99/100/100/100/100; tie breaker number of inner 10s: 44 - 37

²¹ Since 2009: The tie was decided by comparison of the number of inner 10s (in parentheses).

³⁰ 1955 - 2021: 120 shots

³¹ The tie was decided by comparison of the scores in prone position (in parentheses).

³² 1987 - 2011: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in prone position. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

³³ 2013 - 2021: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest-ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

³⁴ 2022: The top 8 shooters in the qualifying round (20 shots in each position: kneeling-prone-standing) moved on to the ranking round without taking into account the qualification scores. After 30 shots (10 in each position) in the ranking round the places 7 and 8 are decided. The remaining 6 shooters fired further 5 shots to fix the places 5 and 6. After further 5 shots of the remaining 4 shooters the places 3 and 4 are decided. The top two finishers of the ranking round advanced to the gold

³⁹ Since 2024: two team competitions; 60 shots

⁴⁰ The top 8 teams in the qualifying round 1 (every shooter fired 45 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 90 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete shot against the athlete in the corresponding position in the other team. The shooter with the higher score received two points (In case of a tie everyone got one point). As soon as one team had reached 46 points, the "duel" was over. In case of a tie where both teams have scored at least 46 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal Matches.

⁴³ 1955: „English Match“ = 30+30 shots, 50+100 m; 1955 - 1959: The tie was decided by comparison of the number of inner 10s (in parentheses).

⁴⁴ 1969 - 1979: Ties were decided by comparison of the last series of 10 shots, if it is still tied the next series of 10 shots etc. (in parentheses).

⁴⁵ If all series of 10 shots are identically, the distance of the last shot from the bullseye decided.

⁴⁶ 1981 - 1983: The tie was decided by comparison of the number of inner 10s (in parentheses).

⁴⁷ 1987 - 2011: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score. 1987 - 1991: Ties were decided first by the total of the final, if there is still a tie a single shot shoot-off followed until the tie is broken.

⁴⁸ Since 1999: Ties were decided by single shot shoot-offs until the tie is broken.

⁴⁹ 2013 - 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All shots were in decimal scores.

⁵³ 1969 - 1980: 40 shots

⁵⁴ The tie was decided by comparison of the number of 10s, 9s etc.

⁵⁵ 1973 - 1979: The tie was decided by comparison of the last series of 10 shots etc.

⁵⁶ The tie was decided by comparison of the number of 10s, 9s etc.

⁵⁷ 1987 - 2012: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score. 1987 - 1992: Ties were decided first by the total of the final.

⁵⁸ Since 1997: Ties were decided by single shot shoot-offs.

⁵⁹ 2013 - 2016: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All shots were in decimal scores.

⁶⁰ Since 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 12. All shots were in decimal scores.

⁶¹ Only 2022: The top 8 shooters in the qualifying round moved on to the semifinal round without taking into account the qualification scores. In the semifinal in 2 groups of 4 shooters (max. 15 shots) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 10 shots the lowest ranked shooter is eliminated. The 3 remaining shooters fired additional 5 shots. The 2 shooters in both groups with the highest score after 15 shots promote to the medal final of 4 shooters with the same regulations. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

⁶² Only 2023: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round the shooters fired 25 shots. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

⁶³ Shooters from Belarus and Russia start as AIN = Neutral Individual Athletes

⁶⁴ The top 20 shooters in the qualifying round 1 (30 shots) moved on to the qualifying round 2 (again 30 shots). The score is the total number of hits in qualifying round 1+2. The best 2 finishers shoot in the gold medal match and the next 2 finishers to the Bronze medal match. In the medal matches the first shooter achieving 15 hits will win.

⁶⁸ Only 2018: The top 8 teams in the qualifying round (30 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. After each round of two shots, the team with the higher score (incremental scoring) received one point (with identical score each team received one point). As soon as a team had reached 16 points in the semifinals and 21 points in the medal matches resp., the "duel" was over.

⁶⁹ Only 2019: The top 8 teams in the qualifying round (60 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. After each round of two shots, the team with the higher score (incremental scoring) received one point (with identical score each team received one point). As soon as a team had reached 16 points, the "duel" was over.

⁷⁰ Only 2020 - 2021: The top 8 teams in the qualifying round 1 (every shooter fired 60 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie each team got one point). As soon as one team had reached 16 points, the "duel" was over.

There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next four teams to the two Bronze medal shootings. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie each team got one point). As soon as one team had reached 16 points, the "duel" was over.

⁷³ Since 2024: There was another team competition called "Trio": The top 8 teams in the qualifying round 1 (every shooter fired 20 shots) moved on to the quarter finals without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The top 4 teams in the quarter finals moved on to the semi finals without taking into account the quarter final scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie each team got one point). ⁷⁴ 1963 - 1965: The tie was decided by comparison of the number of 10s (in parentheses).

⁷⁵ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

⁷⁶ 1987 - 1991: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. The final result is the addition of qualifying and final score. 1987 - 1991: Ties were decided first by the total of the final, if there is still a tie a single shot shoot-off followed until the tie is broken.

⁷⁷ 1993 - 2011: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

⁷⁸ 2013 - 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

⁷⁹ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

⁸⁰ First hits then points scored. 1955 - 1985: Ties were decided by shoot-offs of 3 series of 5 shots in 4 seconds.

⁸¹ The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. The final result is the addition of qualifying and final score.

⁸² 1989 - 1991: The competition format used a three-round tournament, using a qualifying round (60 shots), semifinal of 8 shooters (4 series of 5 shots in 4 seconds each), and a final of 4 shooters (10 shots). Ties were decided first by the total of the two series in the final (in parentheses).

⁸³ 1993 - 2009: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. The final result is the addition of qualifying and final score.

⁸⁴ The tie was decided by series of 5 shots in 4 seconds until the tie was broken.

⁸⁵ 2011 - 2021: The top 6 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 8 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (5 shooters remaining in the fifth series, 4 in the sixth, 3 in the seventh, and only 2 in the eighth and final series). Ties were decided by series of 5 shots in 4 seconds until the tie was broken.

⁸⁶ 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round (in two groups of four) the "hit-or-miss" system was used as in the medal match. The top two finishers of each ranking round group after 20 shots advanced to the medal match. In the medal match the "hit-or-miss" system was used as before.

⁸⁹ Since 2024: two team competitions

⁹⁰ The top 8 teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal match decimal scoring was used, and the hit zone will be 9.7 or higher. Competition shots: series of 5 shots in 4 seconds. All three athletes per team shot at the same time, after all three had fired in 4 sec., a total result will show on the board. One team shoots after another. The team who has more hits in a series get 2 points. In case of equal number of hits, each team get one point. The winner of the match is the team that earns first 9 points. In case of a tie where both teams have scored 9 points the match will continue with 1 additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

¹⁰⁵ Ties were decided by single shot shoot-offs.

¹⁰⁶ 2013 - 2016: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

¹⁰⁷ Since 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 12. All these final shots were in decimal scores.

¹⁰⁸ Only 2022: The top 8 shooters in the qualifying round moved on to the semifinal round without taking into account the qualification scores. In the semifinal in 2 groups of 4 shooters (max. 15 shots) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 10 shots the lowest ranked shooter is eliminated. The 3 remaining shooters fired additional 5 shots. The 2 shooters in both groups with the highest score after 15 shots promote to the medal final of 4 shooters with the same regulations. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

¹⁰⁹ Only 2023: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round the shooters fired 25 shots. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

¹¹⁰ The top 20 shooters in the qualifying round 1 (30 shots) moved on to the qualifying round 2 (again 30 shots). The score is the total number of hits in qualifying round 1+2. The best 2 finishers shoot in the gold medal match and the next 2 finishers to the Bronze medal match. In the medal matches the first shooter achieving 15 hits will win.

¹¹⁵ Only 2018: The top 8 teams in the qualifying round (30 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. After each round of two shots, the team with the higher score received one point (with identical score each team received one point). As soon as a team had reached 16 points in the semifinals and 21 points in the medal matches resp., the "duel" was over.

¹¹⁶ Only 2019: The top 8 teams in the qualifying round (60 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. ¹¹⁷ Only 2020 - 2021: The top 8 teams in the qualifying round 1 (every shooter fired 60 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over.

scored at least 46 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. No European championship as only two teams competing, that's why only the medal match was staged.

¹³⁰ The team event establishes rankings based on the total scores fired by three athletes entered in the individual event. The scores of each team member will be added together and the team results will be ranked. The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

¹⁴⁴ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

¹⁴⁵ 1987 - 2011: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in prone position. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

¹⁴⁶ 1995 - 2017: Sport rifle, 60 shots, 50 m

¹⁴⁷ Ties were decided by single shot shoot-offs.

¹⁴⁸ 2013 - 2021: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest-ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

¹⁴⁹ 2019 - 2021: Sport rifle, 120 shots, 50 m

¹⁵⁰ 2022: The top 8 shooters in the qualifying round (20 shots in each position: kneeling-prone-standing) moved on to the ranking round without taking into account the qualification scores. After 30 shots (10 in each position) in the ranking round the places 7 and 8 are decided. The remaining 6 shooters fired further 5 shots to fix the places 5 and 6. After further 5 shots of the remaining 4 shooters the places 3 and 4 are decided. The top two finishers of the ranking round advanced to the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

¹⁷¹ The top 8 teams in the qualifying round 1 (every shooter fired 45 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 90 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete shot against the athlete in the corresponding position in the other team. The shooter with the higher score received two points (In case of a tie everyone got one point). As soon as one team had reached 46 points, the "duel" was over. In case of a tie where both teams have scored at least 46 points, the match will continue with one additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal matches.

In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal Matches.

¹⁷³ The top 8 teams in the qualifying round 1 (every shooter fired 45 shots in each position) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired the same program again. The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal Matches.

²¹⁸ 2013 - 2016: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All shots were in decimal scores.

²¹⁹ Since 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 12. All shots were in decimal scores.

²²⁰ Only 2022: The top 8 shooters in the qualifying round moved on to the semifinal round without taking into account the qualification scores. In the semifinal in 2 groups of 4 shooters (max. 15 shots) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 10 shots the lowest ranked shooter is eliminated. The 3 remaining shooters fired additional 5 shots. The 2 shooters in both groups with the highest score after 15 shots promote to the medal final of 4 shooters with the same regulations. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

²²¹ Only 2023: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round the shooters fired 25 shots. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

²²² The top 20 shooters in the qualifying round 1 (30 shots) moved on to the qualifying round 2 (again 30 shots). The score is the total number of hits in qualifying round 1+2. The best 2 finishers shoot in the gold medal match and the next 2 finishers to the Bronze medal match. In the medal matches the first shooter achieving 15 hits will win.

²³⁷ Only 2018: The top 8 teams in the qualifying round (30 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. After each round of two shots, the team with the higher score (incremental scoring) received one point (with identical score each team received one point). As soon as a team had reached 16 points in the semifinals and 21 points in the medal matches resp., the "duel" was over.

²³⁸ Only 2019: The top 8 teams in the qualifying round (60 shots each shooter) moved on to the quarterfinals. ²⁴⁸ 1976 - 1980: The tie was decided by shoot-offs of 3 series of 5 shots on rapid fire shooting.

²⁴⁹ née NIZKOVA

²⁵⁰ 1987 - 2011: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in 3 - 7 seconds each. The final result is the addition of qualifying and final score. 1987 - 1991: Ties were decided first by the total of the final.

²⁵¹ née DOBRANCHEVA

²⁵² 2013 - 2015: The top 8 shooters in the qualifying round moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semi-finals, every competitor had five series of five shots. The sum of the target-hits scored decided about the medal games. A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the Gold and Bronze medal matches the winners of each five shot series got 2 match points (in case of a tie 1 match point each). The medal match ended when the first shooter achieved 7 match points. The gap between the match points of both shooters has to be 2 at minimum. If not, the medal shooting prolongs.

²⁵⁴ 2017 - 2021: The top 8 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The (rapid fire shooting) final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 10 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (7 shooters remaining in the fifth series, 6 in the sixth, etc.). Ties were decided by 5 shot series until the tie is broken.

²⁵⁵ 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round (in two groups of four) the "hit-or-miss" system was used as in the medal match. The top two finishers of each ranking round group after 20 shots advanced to the medal match. In the medal match the "hit-or-miss" system was used as before.

²⁶⁸ Since 2024: two team competitions

²⁶⁹ The top 8 teams in the qualifying round 1 (every shooter fired 15 shots in precision stage and 15 shots in rapid stage) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 45 shots (every shooter 3 series of 5 shots in rapid stage). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal match decimal scoring was used, and the hit zone will be 10.2 or higher. Competition shots: series of 5 shots in rapid modus. In each series the team with the highest combined number of hits compared against the other team in the match, wins two points. In case of equal number of hits, each team get one point. The winner of the match is the team that earns first 16 points. In case of a tie where both teams have scored 15 points the match will continue with one additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

²⁸² 2013 - 2016: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

²⁸³ Since 2017: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest-ranked shooter is eliminated beginning from shot 12. All these final shots were in decimal scores.

²⁸⁵ Only 2022: The top 8 shooters in the qualifying round moved on to the semifinal round without taking into account the qualification scores. In the semifinal in 2 groups of 4 shooters (max. 15 shots) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 10 shots the lowest ranked shooter is eliminated. The 3 remaining shooters fired additional 5 shots. The 2 shooters in both groups with the highest score after 15 shots promote to the medal final of 4 shooters with the same regulations. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

²⁸⁶ Only 2023: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round the shooters fired 25 shots. The best 2 finishers shoot in the gold medal match. In the gold medal match after each shot, the shooter with the higher score received two points (In case of a tie each shooter got one point). As soon as one shooter had reached 16 points, the "duel" was over. The shooting extends until a shooter is 2 points ahead.

³⁰² Only 2018: The top 8 teams in the qualifying round (30 shots each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals (20 shots each shooter) decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In the semifinals and the finals each team had two shots. After each round of two shots, the team with the higher score received one point (with identical score each team received one point). As soon as a team had reached 16 points in the semifinals and 21 points in the medal matches resp., the “duel“ was over.

³⁰⁵ Only 2020 - 2021: The top 8 teams in the qualifying round 1 (every shooter fired 60 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over.

³⁰⁶ Only 2022 -2023: The top 8 teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. ³⁰⁸ 2016 - 2017: The top 8 mixed teams in the qualifying round (every shooter fired 25 shots) moved on to the semifinal round without taking into account the qualification scores. There, the teams were placed into two groups of four teams. They fired two series of three shots and one series of two shots of each shooter, then the lowest ranked team of every group is eliminated and after the next two shot round the next team. The remaining two teams fired another round of two shots. Now the best team of every group qualified to the Gold medal shooting and the other team to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie no team got one point). As soon as one team had reached 5 points, the "duel" was over. All shots were in decimal scores.

³⁰⁹ 2018 - 2019: The top 5 mixed teams in the qualifying round (every shooter fired 40 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 48, every shooter 24) shots. Every fourth shot the lowest-ranked pair is eliminated beginning from shot 34. All shots were in decimal scores.

³¹⁰ 2020 - 2021: The top 8 mixed teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the mixed teams fired again 40 shots (every shooter 20 shots). The best two pairs qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

³¹¹ 2022: The top 8 mixed teams in the qualifying round (every shooter fired 30 shots) moved on to the semifinals without taking into account the qualification scores. In the semifinals in 2 groups of 4 teams (max. 36 shots, every shooter 18) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 20 shots the lowest ranked shooter is eliminated, after 30 shots the next one. The remaining two pairs fired additional 6 shots. The group winners qualified to the Gold medal match. The runners-ups achieved the Bronze medal. In the Gold medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

³¹² 2023: The top 2 teams in the qualifying round shoot in the gold medal match and the next four teams to the two Bronze medal shootings. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

³¹³ Since 2024: The top 2 teams in the qualifying round shoot in the gold medal match and the next two teams in Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

³¹⁷ 2022: The top 8 mixed teams in the qualifying round (every shooter fired 30 shots) moved on to the semifinals without taking into account the qualification scores. In the semifinals in 2 groups of 4 teams (max. 36 shots, every shooter 18) the shooters earned points according to their ranking after every single shot (best shot = 4 pts., second best = 3 pts., etc. In case of a tie the points were added and divided by the number of shooters. Example: Tie for 2nd and 3rd = 5/2 = 2,5 pts.). After 20 shots the lowest ranked shooter is eliminated, after 30 shots the next one. The remaining two pairs fired additional 6 shots. The group winners qualified to the Gold medal match. The runners-ups achieved the Bronze medal. In the Gold medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

³¹⁸ 2023: The top 2 teams in the qualifying round shoot in the gold medal match and the next four teams to the two Bronze medal shootings. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over.

³¹⁹ Since 2024: The top 2 teams in the qualifying round shoot in the gold medal match and the next two teams in the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over.

³²⁰ The top 8 teams in the qualifying round 1 (every shooter fired 15 shots in each position) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round One athlete in each team will shoot in the kneeling position and the other in the standing position. Each athlete will shoot against the athlete in the corresponding position in the other team. The winner of each contest will score 2 points for their team. In case of a tie, the competing athletes will score 1 point each. The first team to score 31 points or more will win the match. In case of a tie where both teams have scored at least 31 points, the match will continue with 1 additional shot fired by both members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

³²⁹ The top 8 teams in the qualifying round 1 (2 series in 8- 6- and 4 sec =30 shots by each team member) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 2 series by each team member in 6 and 4 seconds (total 40 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round decimal scoring will be used, and the hit zone will be 9.7 or higher. Competitions shots: series of five (5) shots in 4 sec. The team who has more hits in a series gets 2 points. In case of equal number of hits, each team gets one point. The winner of the match is the team that earns first 9 points. In case of a tie where both teams have scored 9 points the match will continue with 1 additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

³⁵⁰ 2017 - 2019: The top 6 mixed teams in the qualifying round (every shooter fired 20 shots) moved on to the semifinal round without taking into account the qualification scores. There, the teams fired 20 shots (every shooter 10). The top 4 teams promoted to the medal round. Again, every team fired 20 shots (every shooter 10). In case of a tie in the medal round shoot-offs of 2 shots each team decided.

³⁵¹ The top 8 teams in the qualifying round (20 shots each shooter) moved on to the semifinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ of 20 shots (10 shots each shooter) promoted to the finals. In the finals the mixed teams fired 3 rounds of 20 shots (10 shots each shooter). After every round the team with the lowest score is eliminated. In case of a tie in the medal round shoot-offs of 2 shots each team decided.
