³ 40 shots
⁴ The top 8 mixed teams in the qualifying round (every shooter fired 25 shots) moved on to the semifinal round without taking into account the qualification scores. There, the teams were placed into two groups of four teams. They fired two series of three shots and one series of two shots of each shooter, then the lowest ranked team of every group is eliminated and after the next two shot round the next team. The remaining two teams fired another round of two shots. Now the best team of every group qualified to the Gold medal shooting and the other team to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie no team got one point). As soon as one team had reached 5 points, the "duel" was over. All shots were in decimal scores.
⁵ The top 8 mixed teams in the qualifying round (every shooter fired 30 shots) moved on to the semifinal round without taking into account the qualification scores. There, the mixed teams fired again 40 shots (every shooter 20 shots). The best two pairs qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received one point (In case of a tie no team got one point). As soon as one team had reached 16 points, the "duel" was over. All shots were in decimal scores.

As soon as one team had reached 16 points, the "duel" was over.

⁸ The top 8 teams in the qualifying round (20 shots each shooter) moved on to the semifinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ of 20 shots (10 shots each shooter) promoted to the finals. In the finals the mixed teams fired 3 rounds of 20 shots (10 shots each shooter). After every round the team with the lowest score is eliminated. In case of a tie in the medal round shoot-offs of 2 shots each team decided.
