

## Word Cup Finals - Rifle and Pistol

The ISSF World Cup was introduced in 1986 to provide a homogeneous system for qualification to the Olympic shooting competitions. It still is carried out in the Olympic shooting events, with four competitions per year in each event. For the best shooters there is a **World Cup Final** since 1988 (1988 - 2004 always together with running target). To the Finals, the following shooters are qualified:

- The defending Olympic, World, ISSF World Cup Final champions.
- Silver and Bronze medalists of either the last Olympic or the World Championship, whichever competition that was most recently held.
- The eight shooters that have made the best performances at the World Cup competitions during the year. For rating the performances, a special score system is used by considering both the rank and the score achieved in the competitions.
- As many as two shooters can be nominated by the host country to compete in two of the World Cup Final events if no one from the host country qualifies.

<sup>1</sup> Ties were decided by a single shot shoot-off.

<sup>2</sup> Since 2013, the top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

<sup>6</sup> Ties were decided first by the total of the final.

<sup>7</sup> 1993 - 2009: The top 4 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

<sup>8</sup> The tie was decided by series of 5 shots in 4 seconds until the tie was broken.

<sup>9</sup> The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 20 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

<sup>10</sup> Since 2010, the top 6 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 8 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (5 shooters remaining in the fifth series, 4 in the sixth, 3 in the seventh, and only 2 in the eighth and final series).

<sup>13</sup> 1988 - 1996: Small-bore standard rifle, 60 shots

<sup>14</sup> in Russian SHILOVA Irina

<sup>15</sup> née WITZL

<sup>16</sup> Ties were decided by a single shot shoot-off.

<sup>17</sup> née MAUER

<sup>18</sup> Since 2013, the top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

<sup>23</sup> Ties were decided first by the total of the final.

<sup>24</sup> née DOBRANCHEVA

<sup>25</sup> 2013 - 2015: The top 8 shooters in the qualifying round moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semi-finals, every competitor had five series of five shots. The sum of the target-hits scored decided about the medal games. A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the Gold and Bronze medal matches the winners of each five shot series got 2 match points (in case of a tie 1 match point each). The medal match ended when the first shooter achieved 7 match points. The gap between the match points of both shooters has to be 2 at minimum. If not, the medal shooting will prolong.

<sup>26</sup> Since 2016: The top 8 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The (rapid fire shooting) final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 10 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (7 shooters remaining in the fifth series, 6 in the sixth, etc.). Ties were decided by 5 shot series until the tie is broken.

<sup>33</sup> The top 5 mixed teams in the qualifying round (every shooter fired 40 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 48, every shooter 24) shots. Every fourth shot the lowest ranked pair is eliminated beginning from shot 34. All shots were in decimal scores.

<sup>34</sup> The top 8 mixed teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 (Scores of the previous rounds did not carry over to the next rounds.) In the qualifying round 2, every pair had 40 shots again. The first and second ranked pair fought for the gold medal, while the third and fourth - for the bronze medal. In the gold and bronze medal matches each team member had a single shot in each round. The team with the highest combined score in each round, compared against the other team in the match, wins two match points. In case of equal scores each team receives one match point. The first pair to reach 16 points or more will be declared the winner of the match. If there is a tie of both teams having 16 match points, the match will prolong with additional rounds until the tie is broken. All shots were in decimal scores.

<sup>35</sup> The top 5 mixed teams in the qualifying round (every shooter fired 40 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 48, every shooter 24) shots. Every fourth shot the lowest ranked pair is eliminated beginning from shot 34. All these final shots were in decimal scores.

<sup>36</sup> The top 8 mixed teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 (Scores of the previous rounds did not carry over to the next rounds.) <sup>43</sup> 2013 - 2016: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

<sup>44</sup> The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 14. All these final shots were in decimal scores.
