¹² 1897 - 2018: 120 shots; 1897: The inclusion of decimal points in the scores is because in those days it was not unknown for competitors to miss the target altogether. To calculate the score the total points were multiplied by comparison of the number of hits and divided by comparison of the number of shots fired.

¹⁵ Only 2022: The team event establishes rankings based on the total scores fired by three athletes entered in the individual event. The scores of each team member will be added together and the team results will be ranked. The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

²⁶ 1937 - 2018: qualification 120 shots

²⁷ Ties were decided first by comparison of number of hits on the target, next of hits on the scoring rings, then the highest number of 10s, 9s and 8s, and if still a tie the distance of the widest shot from the exact center of the bullseye.

²⁸ The tie was decided by comparison of the scores in prone position (in parentheses).

²⁹ The tie was decided by comparison of the score of the last series of 10 shots etc. (kneeling position) (in parentheses).

³⁰ The tie was decided by comparison of the number of inner 10s (in parentheses).

³¹ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in prone position. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

³² Since 2013: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

³³ Only 2022: The top 8 shooters in the qualifying round (3x20 shots kneeling, prone, standing) moved on to the ranking round without taking into account the qualification scores. In ranking round after 30 shots (10 in each position) the places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots in standing position the next two shooters were eliminated. The best two athletes after 40 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot in standing position (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

³⁴ Since 2022: The qualifying round is of 3x20 shots kneeling, prone, standing.

³⁷ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 3x15 shots kneeling, prone, standing) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 90 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal Matches.

³⁸ Since 2023: The qualifying round is of 3x20 shots kneeling, prone, standing.

Small-bore rifle, prone, 60 shots

⁴⁶ optional event: 40 shots, German targets; The tie was decided by a shoot-off on 20 shots.

⁴⁷ 1970 - 1979: 40 shots

⁴⁸ The tie was decided by comparison of the score of the last series of 10 shots etc. (in parentheses).

⁴⁹ 1981 - 1983: The tie was decided by comparison of the number of 10s, 9s and then the inner tens.

⁵⁰ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score. 1986 - 1991: Ties were decided first by the total of the final.

⁵¹ 1994 - 2002: Ties were decided by a single shot shoot-off.

⁵² The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All shots were in decimal scores.

⁵³ Since 2018: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 12. All shots were in decimal scores.

⁵⁴ Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In ranking round after 15 shots places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots the next two shooters were eliminated. The best two athletes after 25 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

⁵⁷ The tie was decided by comparison of the last 10-shot series of each shooter etc. (in parentheses).

⁵⁸ The tie was decided by comparison of the number of inner 10s (in parentheses).

⁵⁹ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie each team got one point). As soon as one team had reached 16 points, the "duel" was over.

Pistol, 60 shots, 50 m

⁶³ The tie was decided by comparison of the score of the last series of 10 shots etc. (in parentheses).

⁶⁴ 1986 - 1990: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. The final result is the addition of qualifying and final score.

⁶⁵ 1994 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

⁶⁶ The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

⁶⁸ non-title event called „Olympic shooting match“; 1933 - 1935 Three series of 6 shots, each in 8 seconds on 6 targets reproducing a human silhouette (height 1,63 m). target distance 75 cm (center to center). Only hits counted. Ties were decided by a series of 6 shots first in 6 sec, then 5 sec and if still a tie, in 4 sec and repeated until the tie was broken.

⁶⁹ One series of 6 shots on 6 new fewer human figure silhouette targets (height 1,63 m) showing for 8 sec, followed by three series of 6 sec each, then four series of 4 s and finished by one series of 3 sec = 54 shots. The placings were decided by penalty points: 8 points for a miss in the 8-seconds series, 6 for a miss in the 6-seconds series and 4 for a miss in the 4-seconds series.

⁷⁰ One series of 6 shots on 6 less-human angular targets (height 1,65 m) showing for 8 sec, followed by three series of 6 sec each, then four series of 4 s and finished by one series of 3 sec = 54 shots. Official name was „Snap shooting with pistols“; The tie for the championship was decided by series of 6 shots in 3 sec until the tie was broken.

⁷¹ In 7 shoot-off series he hits all 6 targets each.

⁷² In 6 shoot-off series he hits all 6 targets each, in the 7th 5 hits only.

⁷³ In 5 shoot-off series he hits all 6 targets each, in the 6th 5 hits only.

⁷⁴ 1947 - 1986: 30+30 shots on 5 less-human angular targets (height 1,60 m) with 10 scoring rings. Every 30 shots were fired in two series of 8 sec, followed by two series in 6 sec and two series in 4 sec. 1947 - 1954: First hits then points scored.

⁷⁵ 1962 - 1982: The tie was decided by a shoot-off of 3 series of 5 shots in 4 seconds.

⁷⁶ In 1973, the new „international rapid fire target“ with eliminated „shoulders“ was introduced.

⁷⁷ The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. The final result is the addition of qualifying and final score.

⁷⁸ The competition format used a three-round tournament for the only time, using a qualifying round (60 shots), semifinal of 8 shooters (4 series of 5 shots in 4 seconds each), and a final of 4 shooters (10 shots). Ties were decided first by the total of the two series in the final (in parentheses).

⁷⁹ 1994 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

⁸⁰ The tie was decided by series of 5 shots in 4 seconds until the tie was broken.

⁸¹ Since 2014: The top 6 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 8 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (5 shooters remaining in the fifth series, 4 in the sixth, 3 in the seventh, and only 2 in the eighth and final series).

⁸² Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round (in two groups of four) the "hit-or-miss" system was used as in the medal match. The top two finishers of each ranking round group after 20 shots advanced to the medal match. In the medal match the "hit-or-miss" system was used as before.

⁸⁶ The tie was decided by comparison of the last series of 10 shots etc. each shooter (in parentheses).

⁸⁷ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal match decimal scoring was used, and the hit zone will be 9.7 or higher. Competition shots: series of 5 shots in 4 seconds. All three athletes per team shot at the same time, after all three had fired in 4 sec., a total result will show on the board. One team shoots after another. The team who has more hits in a series get 2 points. In case of equal number of hits, each team get one point. The winner of the match is the team that earns first 16 points. In case of a tie where both teams have scored 16 points the match will continue with 1 additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

Center fire pistol, 60 shots, 25 m

⁹⁸ 1970 - 1979: 40 shots

⁹⁹ 1979 - 1985: The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

¹⁰⁰ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

¹⁰¹ Since 1998, ties were decided by a single shot shoot-off.

¹⁰² The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

¹⁰³ Since 2018: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 12. All these final shots were in decimal scores.

¹⁰⁴ Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In ranking round after 15 shots places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots the next two shooters were eliminated. The best two athletes after 25 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

¹¹² The tie was decided by comparison of the last 10-shot series of each shooter etc. (in parentheses).

¹¹³ née FRIEDEL

¹¹⁴ Only 2022: The team event establishes rankings based on the total scores fired by three athletes entered in the individual event. The scores of each team member will be added together and the team results will be ranked. The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied.

¹²⁰ 1958 - 1962: Small-bore rifle, 90 shots; The tie was decided by comparison of the scores in prone position (in parentheses).

¹²¹ 1966 - 1996: Small-bore standard rifle, 60 shots

¹²² née THOMPSON

¹²³ The tie was decided by comparison of the highest number of 10s, 9s etc. and then the inner tens.

¹²⁴ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in prone position. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

¹²⁵ née SHATAROVA

¹²⁶ Since 2014: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional 3 series of 5 shots kneeling, 3 series prone and 2 series standing. The lowest ranked two shooters are eliminated than. After every next shot in standing position the lowest ranked shooter is eliminated. All these (max. 45) final shots were in decimal scores.

¹²⁷ Only 2018: qualification 120 shots

¹²⁸ Only 2022: The top 8 shooters in the qualifying round (3x20 shots kneeling, prone, standing) moved on to the ranking round without taking into account the qualification scores. In ranking round after 30 shots (10 in each position) the places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots in standing position the next two shooters were eliminated. The best two athletes after 40 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot in standing position (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

¹³⁴ née FRIEDEL

¹³⁵ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 3x15 shots kneeling, prone, standing) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 90 shots (every shooter 10 shots in each position). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round each member of a team shot in a different position: kneeling, prone and standing. Each athlete of both teams made one shot. The score is determined by the combined result of all three team members. The team with the higher score received two points (In case of a tie every team got one point). As soon as one team had reached 16 points, the "duel" was over. In case of a tie where both teams have scored at least 16 points, the match will continue with 1 additional shot fired by all three members of each team to decide the tie. This procedure will be repeated if the scores are still tied. Decimal scoring was used in all Medal Matches.

¹⁴⁸ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

¹⁴⁹ née OLIVER

¹⁵⁰ 1981 - 1983: The tie was decided by comparison of the number of 10s, nines and then the inner tens.

¹⁵¹ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

¹⁵² 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

¹⁵³ The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All shots were in decimal scores.

¹⁵⁴ Since 2018: The top 8 shooters in the qualifying round (60 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 12. All shots were in decimal scores.

¹⁵⁵ Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In ranking round after 15 shots places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots the next two shooters were eliminated. The best two athletes after 25 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

¹⁵⁸ 1994 - 1998: The tie was decided by comparison of the last series of 10 shots etc. each shooter (in parentheses).

¹⁵⁹ née LECHNER

¹⁶⁰ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 30 shots) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 60 shots (every shooter 20 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round after each shooter made one shot, the team with the higher score received two points (In case of a tie each team got one point). As soon as one team had reached 16 points, the "duel" was over.

¹⁶¹ Rapid fire pistol, 60 shots, 25 m; non-title event

¹⁶² 1970 - 1978: The tie was decided by a shoot-off of 3 series of 5 shots on rapid fire shooting.

¹⁶³ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots in 3 - 7 seconds each. The final result is the addition of qualifying and final score. 1986 - 1990: Ties were decided first by the total of the final.

¹⁶⁴ née DOBRANCHEVA

¹⁶⁵ in Russian AŞUMOVA İrada

¹⁶⁶ Ties were decided by 5-shot series in 3 - 7 seconds.

¹⁶⁷ Only 2014: The top 8 shooters in the qualifying round moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semi-finals, every competitor had five series of five shots. The sum of the target-hits scored decided about the medal games. A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the gold and bronze medal matches the winners of each five shot series got 2 match points (in case of a tie 1 match point each). The medal match ended when the first shooter achieved 7 match points. The gap between the match points of both shooters has to be 2 at minimum. If not the medal shooting prolongs.

¹⁶⁸ Since 2018: The top 8 shooters in the qualifying round moved on to the final round, qualifying scores did not carry over to the final. The (rapid fire shooting) final switched to a "hit-or-miss" system, where a 9.7 or better scores as a "hit" for 1 point and anything lower scores as a "miss" for 0 points. The final featured 10 series of 5 shots each (5 points maximum per series, 40 points maximum total). However, starting with the fourth series, the remaining shooter with the lowest total was eliminated after each series (7 shooters remaining in the fifth series, 6 in the sixth, etc.). Ties were decided by 5 shot series until the tie is broken.

¹⁶⁹ Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In the ranking round (in two groups of four) the "hit-or-miss" system was used as in the medal match. The top two finishers of each ranking round group after 20 shots advanced to the medal match. In the medal match the "hit-or-miss" system was used as before.

¹⁷⁴ Since 2018: The tie was decided by comparison of the number of inner 10s (in parentheses).

¹⁷⁵ Only 2022: The top 8 teams in the qualifying round 1 (every shooter fired 15 shots in precision stage and 15 shots in rapid stage) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 45 shots (every shooter 3 series of 5 shots in rapid stage). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal match decimal scoring was used, and the hit zone will be 10.2 or higher. Competition shots: series of 5 shots in rapid modus. In each series the team with the highest combined number of hits compared against the other team in the match, wins two points. In case of equal number of hits, each team get one point. The winner of the match is the team that earns first 16 points. In case of a tie where both teams have scored 15 points the match will continue with one additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

¹⁷⁶ The tie was decided by comparison of the number of inner 10s (in parentheses).

¹⁷⁷ The tie was decided by a shoot-off of 4 series of 5 shots in 10 seconds each.

¹⁷⁸ 1970 - 1978: The tie was decided by a shoot-off of 10 shots.

¹⁷⁹ 1986 - 2010: The top 8 shooters in the qualifying round moved on to the final round. There, they fired additional 10 shots. These shots scored in increments of 0,1, with a maximum score of 10,9. The final result is the addition of qualifying and final score.

¹⁸⁰ née BRAJKOVIĆ

¹⁸¹ née DOBRANCHEVA

¹⁸² née TSVETKOVA; in Russian YEVGLEVSKAYA Lolita

¹⁸³ Ties were decided by a single shot shoot-off.

¹⁸⁴ Only 2014: The top 8 shooters in the qualifying round moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 20) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 8. All these final shots were in decimal scores.

¹⁸⁵ Since 2018: The top 8 shooters in the qualifying round (60 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 24) shots. Every second shot the lowest ranked shooter is eliminated beginning from shot 12. All these final shots were in decimal scores.

¹⁸⁶ Only 2022: The top 8 shooters in the qualifying round moved on to the ranking round without taking into account the qualification scores. In ranking round after 15 shots places 8 and 7 were decided and those athletes stopped shooting. After the next 5 shots the next two shooters were eliminated. The best two athletes after 25 shots advanced to the Medal match the next one got the Bronze medal and the 4th place resp. In the Medal match the shooters earned points according to their score after every single shot (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one shooter reached 16 points, the "duel" was over.

¹⁹³ Qualification 1: Each team member fired 3x15 shots (kneeling, prone, standing). The 8 top mixed teams moved on the Qualification 2 without taking into account the qualification 1 scores. Qualification 2: Each team member fired 3x10 shots (kneeling, prone, standing). The top 2 teams in the qualification 2 moved on to the Gold medal match, the teams ranked 3rd and 4th to the Bronze medal match without taking into account the qualification 2 scores. In the Medal match the teams earned points according to their score after every two single shots (one team member in kneeling and the other ones in standing position): the highest score received two points, in case of a tie each shooter got one point, lowest score zero points. As soon as one team reached 16 points, the "duel" was over.

¹⁹⁴ Qualification 1: Each team member fired 30 shots. The 8 top mixed teams moved on the Qualification 2 without taking into account the qualification 1 scores. Qualification 2: Each team member fired 20 shots. The top 2 teams in the qualification 2 moved on to the Gold medal match, the teams ranked 3rd and 4th to the Bronze medal match without taking into account the qualification 2 scores. In the Medal match the teams earned points according to their score after every two single shots: the highest score received two points, in case of a tie each shooter got one point, lowest score zero points. As soon as one team reached 16 points, the "duel" was over.

¹⁹⁵ Qualification 1: Each team member fired 3x15 shots (kneeling, prone, standing). The 8 top mixed teams moved on the Qualification 2 without taking into account the qualification 1 scores. Qualification 2: Each team member fired 3x10 shots (kneeling, prone, standing). The top 2 teams in the qualification 2 moved on to the Gold medal match, the teams ranked 3rd and 4th to the Bronze medal match without taking into account the qualification 2 scores. In the Medal match the teams earned points according to their score after every two single shots (one team member in kneeling and the other ones in standing position): the highest score received two points, in case of a tie each shooter got one point, lowest score zero points. As soon as one team reached 16 points, the "duel" was over.

¹⁹⁶ Qualification 1: Each team member fired 30 shots. The 8 top mixed teams moved on the Qualification 2 without taking into account the qualification 1 scores. Qualification 2: Each team member fired 20 shots. The top 2 teams in the qualification 2 moved on to the Gold medal match, the teams ranked 3rd and 4th to the Bronze medal match without taking into account the qualification 2 scores. In the Medal match the teams earned points according to their score after every two single shots: the highest score received two points, in case of a tie each shooter got one point, lowest score zero points. As soon as one team reached 16 points, the "duel" was over.

¹⁹⁷ Each team member fired 60 shots.

¹⁹⁸ The top 5 mixed teams in the qualifying round (every shooter fired 40 shots) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 48, every shooter 24) shots. Every fourth shot the lowest ranked pair is eliminated beginning from shot 34. All shots were in decimal scores.

¹⁹⁹ 2022: The top 2 teams in the qualifying round (every shooter fired 30 shots) moved on to the Gold medal match, the teams ranked 3rd and 6th to the Bronze medal match 1, the teams ranked 4th and 5th to the Bronze medal match 2 without taking into account the qualification scores. In the Medal match the teams earned points according to their score after every two single shots (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one team reached 16 points, the "duel" was over.

²⁰⁰ Since 2023: The top 2 teams in the qualifying round (every shooter fired 30 shots) moved on to the Gold medal match, the teams ranked 3rd and 4th to the Bronze medal match without taking into account the qualification scores. In the Medal match the teams earned points according to their score after every two single shots (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one team reached 16 points, the "duel" was over.

²⁰¹ The top 2 teams in the qualifying round (every shooter fired 30 shots) moved on to the Gold medal match, the teams ranked 3rd and 6th to the Bronze medal match 1, the teams ranked 4th and 5th to the Bronze medal match 2 without taking into account the qualification scores. In the Medal match the teams earned points according to their score after every two single shots (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one team reached 16 points, the "duel" was over.

²⁰² The top 8 teams in the qualifying round 1 (2 series in 8- 6- and 4 sec =30 shots by each team member) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 2 series by each team member in 6 and 4 seconds (total 40 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the medal round decimal scoring will be used, and the hit zone will be 9.7 or higher. Competitions shots: series of five (5) shots in 4 sec. The team who has more hits in a series gets 2 points. In case of equal number of hits, each team gets one point. The winner of the match is the team that earns first 16 points. In case of a tie where both teams have scored 16 points the match will continue with 1 additional extra series fired by both members of each team to decide the tie. If the scores are still tied the teams will continue to shoot additional shots on command until the tie is broken.

²⁰³ The top 8 teams in the qualifying round 1 (2 series in 150- 20- and 10 sec =30 shots by each team member) moved on to the qualifying round 2 without taking into account the qualification scores. There, the teams fired again 2 series by each team member in 20 and 10 seconds (total 40 shots). The best two teams qualified to the Gold medal shooting and the next two teams to the Bronze medal shooting. In the Medal match the teams earned points according to their score after every five shots series in 10 seconds (highest score received two points, in case of a tie each shooter got one point, lowest score zero points). As soon as one team reached 16 points, the "duel" was over.

²¹⁶ The tie was decided by comparison of the number of 10s (in parentheses). As the number of hits and then the number of aiming marks were still ties.

²¹⁷ For all rifle events and free pistol: Ties were decided first by comparison of number of hits on the target, next of hits on the scoring rings, then the highest number of 10s, 9s and 8s, and if still a tie the distance of the widest shot from the exact center of the bullseye.

²¹⁸ 1947 - 1962: The tie was decided by comparison of the number of 10s (in parentheses).

²¹⁹ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).

²²⁰ 1974 - 1990: The tie was decided by comparison of the score of the last series of 10 shots (in parentheses).

²⁵⁹ 1931 - 1933: The tie was decided by comparison of the number of 10s (in parentheses).

²⁶⁰ The tie was decided by comparison of the number of 10s, 9s and 8s. As this was still a tie the worst shot in the last series of 10 shots came into account (in parentheses).

²⁶¹ For all rifle events and free pistol: Ties were decided first by comparison of number of hits on the target, next of hits on the scoring rings, then the highest number of 10s, 9s and 8s, and if still a tie the distance of the widest shot from the exact center of the bullseye.

²⁶² 1947 - 1954: The tie was decided by comparison of the number of inner 10s (in parentheses). Then by the distance of the nearest shot from the exact center of the bullseye of the last series.

²⁶³ 1958 - 1962: The tie was decided by comparison of the number of inner 10s (in parentheses).

²⁶⁴ The tie was decided by comparison of the last 10-shot series etc. (in parentheses).
