

## Shotgun shooting European Championships

Until 1947 the FITASC evaluated the first 200 clay targets of the (300 clay targets) World championships as European championships. Since 1951 the UIT took over the organization of Olympic events and World Championships in shotgun shooting every four years, but the FITASC organized annual European championships yet. Starting from 1955, the UIT organized European championships with the full world championship program. To avoid double European championships as in 1955, the FITASC resigned to its own championships during these years. From 1969 onwards, the ESC finally took over the implementation of the European championships but stayed with the annual event. To rate a competition as European Championship, at least 15 male shooters or 5 male teams and at least 10 female shooters or 4 female teams must compete. In the non-Olympic events only 3 teams were needed.

<sup>18</sup> 2013 - 2016: The top 6 shooters in the qualifying round (125 targets) moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semifinals, every competitor had 15 targets (only one shot). A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the Gold and Bronze medal matches every shooter had 15 targets (only one shot) again. Ties were decided by shoot-offs on single targets until the tie was broken.

<sup>19</sup> Since 2017: The top 6 shooters in the qualifying round (125 targets) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 50) shots. Every five shots the lowest-ranked shooter is eliminated beginning from shot 25. Only the last two competitors fired the shots 41 - 50. Ties were decided by shoot-offs on single targets until the tie was broken.

<sup>20</sup> Only 2022: The top 8 shooters in the qualifying round (125 targets) moved on to the finals without taking into account the qualification scores. The Finals consist of Ranking Match 1 and Ranking Match 2, composed of 4 athletes each and the Medal Match, composed of the 2 winners from each Ranking Match. In the ranking matches the shooter with the lowest score was eliminated after 15 shots. After further 10 shots the best two shooters of each group qualified for the medal match. In the medal match they fired max. 35 shots. After 15 shots and 10 shots resp. the lowest-ranked shooter is eliminated.

<sup>33</sup> The top 8 teams in the qualifying round (125 targets each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In all knock-out rounds every team shoots on 75 targets.

<sup>57</sup> The top 8 teams in the qualifying round (125 targets each shooter) moved on to the quarterfinals. The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In all knock-out rounds every team shoots on 60 targets. Ties were decided by shoot-offs on doubles until the tie was broken.

The qualifying scores decided the pairing (1st vs. 8th ranked, 2nd vs. 7th, 3rd vs. 6th, 4th vs. 5th) the winning team of each „duel“ promoted to the semifinals. Again, the score of the quarter finals decided the pairing (highest vs. worst score, 2nd vs. 3rd). The winning teams promoted to the Gold medal match and the losers to the Bronze medal match. In all knock-out rounds every team shoots on 45 targets.

<sup>94</sup> Since 2021. The best 2 teams in the qualifying round (175 targets each shooter) promoted to the Gold medal match and the next 2 teams to the Bronze medal match. Number of targets in the final: Up to 5 series of 5 targets each series. During each series, each team will shoot 15 targets. Maximum 25 targets each athlete (75 targets each team). After each series of 5 targets the team with the highest number of hit targets out of the total score of 15 targets, will receive 2 points and if the results are equal, then each team will receive 1 point. The team that earns 6 points first, wins the match. If at the end of the 5th series the two teams have the same number of points, then the winner will be decided by a shoot-off. When the first designated athletes of the two teams finished shooting on station 1, if the tie(s) is(are) not broken, the same procedure will continue on station 2 with the 2nd designated member of each team shooting etc.

<sup>96</sup> The top 4 teams in the qualifying round (50 targets each shooter) moved on to the semifinals. The qualifying scores decided the pairing (1st vs. 4th ranked, 2nd vs. 3rd) the winning team of each „duel“ promoted to the Gold medal match and the losers to the Bronze medal match. Number of targets in the final: Up to 5 series of 5 targets each series. During each series, each team will shoot 15 targets. Maximum 25 targets each athlete (75 targets each team). After each series of 5 targets the team with the highest number of hit targets out of the total score of 15 targets, will receive 2 points and if the results are equal, then each team will receive 1 point. The team that earns 6 points first, wins the match. If at the end of the 5th series the two teams have the same number of points, then the winner will be decided by a shoot-off. When the first designated athletes of the two teams finished shooting on station 1, if the tie(s) is(are) not broken, the same procedure will continue on station 2 with the 2nd designated member of each team shooting etc.

<sup>114</sup> Since 2017: The top 6 shooters in the qualifying round (75 targets) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 60) shots. Every ten shots the lowest-ranked shooter is eliminated beginning from shot 20. Only the last two competitors fired the shots 51 - 60. Ties were decided by shoot-offs on single doubles until the tie was broken.

<sup>115</sup> Only 2022: The top 8 shooters in the qualifying round (125 targets) moved on to the finals without taking into account the qualification scores. The Finals consist of Ranking Match 1 and Ranking Match 2, composed of 4 athletes each and the Medal Match, composed of the 2 winners from each Ranking Match. In the ranking matches the shooter with the lowest score was eliminated after 20 shots. After further 10 shots the best two shooters of each group qualified for the medal match. In the medal match they fired max. 40 shots. After 20 shots and 10 shots resp. the lowest-ranked shooter is eliminated. Ties were decided by shoot-offs on single targets until the tie was broken.
