¹⁶ 1986 - 1991: 200 targets; The top 6 shooters in the qualifying round moved on to the final round. There, they fired on additional 25 targets. The final result is the addition of qualifying and final score. Ties were decided first by the total of the final. If this is still a tie by shoot-offs on single targets until the tie was broken.

¹⁷ since 1993 125 targets; The top 6 shooters in the qualifying round moved on to the final round. There, they fired on additional 25 targets. The final result is the addition of qualifying and final score. Ties were by shoot-offs on single targets until the tie was broken.

¹⁸ 2013 - 2015: The top 6 shooters in the qualifying round (125 targets) moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semifinals, every competitor had 15 targets (only one shot). A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the Gold and Bronze medal matches every shooter had 15 targets (only one shot) again. Ties were decided by shoot-offs on single targets until the tie was broken.

¹⁹ Since 2017: The top 6 shooters in the qualifying round (125 targets) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 50) shots. Every five shots the lowest-ranked shooter is eliminated beginning from shot 25. Only the last two competitors fired the shots 41 - 50. Ties were decided by shoot-offs on single targets until the tie was broken.

⁴³ since 1993 125 targets; The top 6 shooters in the qualifying round moved on to the final round. There, they fired on additional 25 targets. The final result is the addition of qualifying and final score. Ties were decided by shoot-offs on single targets until the tie was broken.

⁴⁴ 2013 - 2015: The top 6 shooters in the qualifying round (125 targets) moved on to the semifinal, qualifying scores did not carry over to the final rounds. In the semifinals, every competitor had 16 targets (as doubles). A table was established where the first and second fought for the gold medal, while the third and fourth - for the bronze medal. In the Gold and Bronze medal matches every shooter had 16 targets (as doubles) again. Ties were decided by shoot-offs on single targets until the tie was broken.

⁴⁵ Since 2017: The top 6 shooters in the qualifying round (125 targets) moved on to the final round without taking into account the qualification scores. There, they fired additional (max. 60) shots. Every ten shots the lowest-ranked shooter is eliminated beginning from shot 20. Only the last two competitors fired the shots 51 - 60. Ties were decided by shoot-offs on single targets until the tie was broken.

⁴⁶ Only 2022: The top 8 shooters in the qualifying round (125 targets) moved on to the finals without taking into account the qualification scores. The finals consist of Ranking Match 1 and Ranking Match 2, composed of 4 athletes each and the Medal Match, composed of the 2 winners from each Ranking Match. In the ranking matches the shooter with the lowest score was eliminated after 20 shots. After further 10 shots the best two shooters of each group qualified for the medal match. In the medal match they fired max. 40 shots. After 20 shots and 10 shots resp. the lowest-ranked shooter is eliminated. Ties were decided by shoot-offs on single targets until the tie was broken.
